

Project / Owner:

**American Harley Davidson
Joe Hartrich - Owner (716) 692-7200**

Project Description:

Renovation and new construction of commercial building. Originally hired as the structural engineer, Delaney CMS was later assigned full design responsibility, and under that role, managed the project to an on-time, and under budget, completion. *“After many mishaps, we decided to part ways with the architect and needed someone to recover the project, Delaney CMS stepped up and rose to the challenge. They were the main reason we could successfully complete our project” - Joe Hartrich, Owner*
